GLOMEX GRANTS E.P. BARRUS EXCLUSIVE RIGHTS IN UK & IRELAND

Glomex SRL, the leading global manufacturer of antennas and connectivity products for RVs and recreational, commercial and military vessels, has awarded E.P. Barrus Ltd exclusive distributor rights for the marine and vehicular markets in the United Kingdom and Ireland. Piero Baldassarri, president, made the announcement at the Southampton Boat Show.

"We're pleased to partner with E.P. Barrus," said Baldassarri. "They have the trust and respect of an extensive customer base and will provide new opportunities to saturate the markets they excel in with our robust portfolio of products."

"Due to the forward thinking Glomex has put into its product development over the years, it has positioned itself ahead of the competition, in both marine and RV," said Ben Allen, E.P. Barrus general manager, marine leisure. "This addition to our line will not only get the support of our dedicated technical team, but the biggest sales team within the UK marine industry covering retailers, boatyards, Royal National Lifeboat Institutes and extensive contracts with the UK Ministry of Defence."

-more-

For over 100 years, E.P. Barrus has represented a broad array of leading international brands in the leisure and commercial marine and vehicular markets. It has a network of over 3,000 authorized dealers. Its website is www.barrus.co.uk.

Glomex manufactures a wide range of marine and RV antennas, and modular wireless system monitoring solutions. It has won numerous international awards for innovation and is unique within the industry by backing its products with limited lifetime warranties.
